Mirka ROP2 312NV 77mm Non Vacuum Orbit 12,0

8994210311

Mirka's pneumatic Two-Handed Polisher features powerful performance, excellent stability during operation and a compact, streamlined design that allows it to polish even difficult to reach areas. That ensures it is a fast and effective polishing machine - indeed, its random orbital action produces particularly impressive results when buffing out sanding scratches. The optional side handle (included in the kit) provides an extra gripping point to further increase control and reduce effort.

Mirka RP 300NV 77mm Non Vacuum

8993540311

This MIRKA® RP 300NV Rotary Polisher is a powerful tool providing a fast way to a perfect finish. The shape allows operators to reach small areas. MIRKA® RP 300NV offers a quick and effective polishing process. This 77 mm polisher is designed to be used for smaller polishing jobs such as in paint rectification processes after using Polarstar SR products and in polishing processes for restoring of head lights.
